<https://website.portfolio/username>

Front End Developer with more than 4 years of experience developing highly interactive web applications using JavaScript, HTML5, CSS, JSON, Angular 15+, Bootstrap and RESTFUL API integration. I am passionate about Technology and Innovation, with the ability to meet the objectives and needs of the client. I am currently involved in the development of SPA's using JavaScript with Angular and learning Nestjs. I am looking for a remote position as a Front End developer in dynamic and high performance teams.

EXPERIENCE

Advancio, Mid Front End Developer — November, 2022 - April, 2023 (Remote)

- Improve search performance in an existing project, reducing the getting data time by 60%.
- Guide 3 junior developer's in Angular

Tech Stack: Angular 15, Bootstrap, Typescript, HTML, SCSS, Javascript

DOMUS Ingenieria, Full Stack Developer

Archivist Software — December, 2021 - November 2022

- Creation of sections to upload documents from the government from Tepatitlan, Jalisco.
- Implementation of NPM libraries to extract metadata from the documents.
- Creation of 8 microservices to manage the backend information.
- Designed the interface with FigmaUI.
- Participated in the meetings to make the structure of the platform.

Tech Stack: Angular 13, Nodejs, Express.js, MongoDB, Bootstrap, Typescript, Python, Docker, Redis, Figma, Azure DevOps, Git.

Restaurant Software V2 — January, 2021 - November 2021

- I redid this project from scratch because its first version was with Angular 1, updated to Angular 15.
- Creation of 10 microservices for the backend.

Tech Stack: Angular 10, Nodejs, Express.js, MongoDB, Bootstrap, Typescript, Python, Docker, Redis, Azure DevOps, Git.

Residential Houses — January, 2020 - December 2020

- Developed dynamic forms for the management of residents credentials..
- Integrate Rest APIs to manage the data from the residents.

Tech Stack: Angular 10, Nodejs, Express.js, MongoDB Bootstrap, Typescript, Azure DevOps, Git.

Restaurant Software V1 — Jun, 2018 - December 2019

- Made an application to manage the information from restaurants, with 5 different roles to operate.
- Made the backend part and designed the database structure.

Tech Stack: Angular 1, Javascript, JQuery, PHP, MySQL, FileZilla.

SPA & Massages Plattform — September, 2017 - May 2018

- Made forms and implemented charts sections to read the statistics of sales..
- This platform supports around 100 users actually.
- Implemented structure to support multiple branches.

Tech Stack: Angular 1, Javascript, JQuery, PHP, MySQL, FileZilla.

PERSONAL PROJECTS

My portfolio— [Alex Ruiz \(alexruiz-portfolio.netlify.app\)](https://alexruiz-portfolio.netlify.app) - 2023

- This is my portfolio inspided in Spiderman PS Video game. Here you can see my personal projects and I will be uploading new ones.

Stack: Angular 16, Ng Bootstrap, Bootstrap 5

My weather — [My weather - Alex Ruiz \(alexruiz-myweather.netlify.app\)](https://alexruiz-myweather.netlify.app) - 2023

- I made this project to show the current weather around the world using a free API. Implementing a dynamic background that changes depending on the weather degrees, soon I will implement the forecast data.

Stack: Angular 16, Ng Bootstrap, Bootstrap 5.

Cyber+Ctrl — In progress

- This is a project to manage rent of video games consoles, with sanctions where you can see the list of the consoles, create or add new consoles, start a new rent, register a payment of rent, receive notifications when the timing of rent is over, indicate the broken or maintaining consoles. In this project I use Angular 16 for the backend and Nestjs and MongoDB for the backend.

Stack: Angular 16, Nestjs, MongoDB, Ng Bootstrap, Bootstrap 5.

SKILLS

Soft skills: Problem solving, Teamplayer, Time management, Self learner person.

Programming Languages: Advanced: Javascript, Typescript; Intermediate: Python (Spontaneously); Basic: Java, PHP.

Frameworks Tools: Advanced: Angular; Intermediate: Express.js, Node.js; Basic: NestJs (Spontaneously).

Data Base: Intermediate: MongoDB, MySql (Spontaneously);

Agile: Scrum

Languages: Upper Intermediate: English; Native: Spanish.

EDUCATION

Universidad de Guadalajara – Tepatitlán de Morelos, Jalisco. *Licenciatura en Ingeniería en Computación, May 2017*
